Just talked to John Sites with the Town of Silverton. They do not take out of that fork of Cement Creek, so they are ok. He did say that the creek is opaque orange. We have notified all other downstream users that we can identify, including Town of Durango, San Juan Basin Health, Glacier View (Cameron), Animas Water Co. and Colorado Rural Water (they are currently working on a watershed plan for that area and may have a mailing list of users).

On Wed, Aug 5, 2015 at 1:13 PM, Nedrow - CDPHE, Ann <[ann.nedrow@state.co.us](mailto:ann.nedrow@state.co.us)> wrote:

Attached is a report for San Juan County, headed for Silverton, of a mine blowout and release of at least a million gallons of orange water to Upper Cement Creek and to the Animas River. Water is continuing to release from the mine at a slower rate.

DRMS requested that WQ assist with notification of downstream users, and Tom Schaffer has begun this process.

Thank you,

Ann
